DARE NOT FACE THE MUSIC.

Thursday morning's dispatches described how the American Bankers Association had given up its annual convention, called for the 6th and 7th of September in Chicago. The reason alleged for this postponement is the extraordinary monetary crisis. When one considers that the extraordinary monetary crisis is a fictitious condition, brought on for injurious and oppressive purposes by the bankers themselves and in order that they might control the financial legislation of the country, the pleading of that reason for the postponement of the bankers' annual convention is as if a man should go into court and plead his own wrong as a reason why he did not wish to come to trial. In crawling into their hole in this manner the bankers of the East exhibit their usual cowardice and show forth anew the unscrupulous nature of their minds. The fact is, the bankers dare not face the situation that they have made.

They fear two things. First, that a considerable number among their own ranks will take the people's side of the case and speak for silver. In all the conventions held by the bankers there have been found some silver. Without doubt the number of these silver men would be largely increased at the time. The bankers fear that the silver utterances in their own convention would so weaken their predetermined voice in the favor of gold alone that they would be made ridiculous before the country. Another thing they fear is that their conspiracy against the business of the country having become widely known, a just public indignation would search them in its fiery flames should they come out and publicly sustain their nefarious course. The bankers do well to take to their holes. They should seek the dark and keep out of the sight of honest men as other conspirators are wont to do.—Salt Lake Tribune.

Goldbug Predictions.

Washington, Aug. 26.—The prevailing impression as to the probable action of the two houses on the silver question, finds expression as follows: A vote on the Wilson repeal bill will be taken on Monday in the House and the silver purchase clause in the Sherman law, as far as that body is concerned, will be wiped out of existence. The bill will then go to the Senate, where it will be referred to the Finance Committee, which will probably pigeon-hole it. The Senate will go right straight along talking silver as it has been doing for several days; it will do this two weeks and probably longer, before a final vote will be taken. The bill which will be passed will be Vorhees', not the Wilson bill from the House, which will slumber along quietly in the room of the Finance Committee. Then the Vorhees bill will go over to the House, where it will doubtless be acted on without delay, though there may be another flood of oratory, because there is some difference between the Senate and House measures. The silver men may insist on some talk; if there is a prospect of a contest, however, a cloture will be speedily applied and the bill will be passed and then be ready for the President's signature. The Vorhees bill only differs from the Wilson bill in making a declaration in favor of bimetalism.

Labor Riots.

Detroit, August 26.—The labor troubles have reached this city. This morning a great mob of idle Polish laborers assembled together and sent a demand to the Board of Public Works that they be supplied with work. The Board explained that it was powerless to act in the matter.

The answer made the crowd angry and it marched down the street to where a gang of pavers were at work. The pavers were attacked by the Poles and fought back. Several on both sides were injured before the police succeeded in dispersing the crowd. It is feared that this is only the beginning of the trouble.

The box factory is the busiest place in town and gives employment to about forty men and boys.

Will sell goods so cheap, that you will be amazed at your own stupidity in having patronized high-priced establishments. These are grinding times and it behooves you to place your money where it will do the most good.

We are selling best two and four point BARBED WIRE at 4 1-4 cents per pound. The oldest inhabitant will tell you that this is remarkably cheap, unparalleled in the history of Carson.

We have reduced the prices of everything we carry in stock; Groceries, Provisions, Liquors, Hardware, Tinware, Crockery, Paints, Oils, Wall Paper, etc., can be purchased at this Emporium at a less percentage of profit than elsewhere. No necessity for sending your money to California, thinking you can save something for we will be more than pleased to duplicate your bills.

Give us a trial order and make your comparisons with purchases at home or abroad and be convinced. Orders from the country, as well as Carson and its environs will receive our prompt attention.
